Art Unit: 3626

1. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. In claim 1, line 5 merely states a tongue and groove means and its function. However there is no sufficient information addressing the structural relationship between the means and other elements of the invention.

In claim 7, line 2 "member" should be "section".

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wiese '955.

4. Claims 1, 2, 4-6, and 9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Francis Jr. et al. '132.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Esnault, Dixon, Fournier et al, Shepherd, Joyce, Goranson et al.
